

FIDELITY

Turf Type Tall Fescue

Uses: NEW RELEASE from Scotts/Landmark Seed with initial significant commercial harvest in 2005.

FIDELITY is an excellent choice for sports fields, golf course roughs, commercial turf, home lawns erosion control, roadsides and airports. This is the most popular turf in the transition zone, and in other areas that require a durable turf.

FIDELITY tall fescue is a good choice for athletic fields throughout the transition zone as well as in sandy, un-irrigated situations in the Southern half of the cool season zone where conditions are poor for standard Kentucky bluegrass and Perennial Ryegrass. Use in full sun to moderate shade.

Geographical Adaptation: All areas of adaptation for Turf Type tall fescue with excellent performance compared to other commercial varieties in the hot and humid Southern, Mid-Atlantic and Transition Zone .

Features: Developed by Pure Seed Testing in North Carolina, FIDELITY will maintain excellent turf qualities in hot and humid regions that challenge the performance of other tall fescues. NTEP tests found at www.ntep.org.

Production Areas: Washington, Oregon

Rate: Overseeding: 3–6 lbs/1,000 Sq. Ft
New Seeding: 8–10 lbs/1,000 Sq. Ft
