

WYATT

Turf Type Tall Fescue

Uses: WYATT Tall Fescue is an excellent choice for sports fields, golf course roughs, commercial turf, home lawns, erosion control, roadsides and airports. This is the most popular turf in the transition zone, and in other areas that require a durable turf. WYATT Tall Fescue is a good choice for athletic fields in sandy, un-irrigated situations in the Southern half of the cool season zone where conditions are poor for Kentucky bluegrass and Perennial Ryegrass. Use in full sun to moderate shade.

Geographical Adaptation: Transition zone North to Southern half of cool season zone.

Features: A versatile turf type tall fescue in latest turf trials. Dark green color, excellent texture and density. Excellent heat and drought tolerance, moderate shade tolerance and excellent durability are characteristics that make WYATT Tall Fescue an excellent and versatile grassing choice.

MD/VA RECOMMENDED CULTIVAR.

Production Areas: Washington, Oregon

Rate: Overseeding: 3–6 lbs/1,000 Sq. Ft

New Seeding: 8–10 lbs/1,000 Sq. Ft
